WHO AM I?

This unique book takes the readers into 2 journeys of discovery.

Step into a lush and warm jungle to meet one of the world's most amazing creatures, the tiger.

Divided in 2 parts, this book first guides the reader into the tiger's world to discover what animal is hiding in the jungle through clues, in a poetic language and little visual hints hidden on the beautifully illustrated pages.

Once the first part is done, readers will discover that they can separate the pages, to expose more information about these fantastical animals, the challenges they face now, and how we can help tigers to resist in the wild.

Aimed at young children, this book enchants and educate at the same time. Developed with a world audience in mind, it will ease discussions into ecology and human responsibility towards our planet and all that live on it.

NEW RELEASE

Journey to meet a fierce predator, and see the world through his eyes.

STORIES OF SHADOW AND DREAD FROM ALL OVER THE WORLD

Everyone is afraid of something. Fear is a normal and important feeling that all people throughout our history have felt too. From these common fears came stories, myths and monsters, many of them trying to explain the inexplicable or to serve as a warning of very real dangers. This book introduces readers to some of these creatures, exploring the universality of our fears and stories and the meanings and motives behind each.

CURIOUS KIDS DISCOVER THE SAHARA DESERT

A new title for the Curious Kids Discover collection, Lume now takes readers to discover the SAHARA DESERT. This is one of the driest and most inhospitable places on Earth, and even there life finds a way to thrive. Discover how the Sahara came to be, what are the challenges of living there, and meet some of the animals that call such place home. From the famous dromedary to the mysterious desert crocodile, several animals developed unique adaptations and strategies. Going beyond the obvious, and always thriving to contextualize animal life with all its complexity and contradictions, this book is a great entrance into this very successful series.

Cross one of the world's largest deserts

HOW WE COUNT STORIES AND PUZZLES FROM THE WORLD OF MATHEMATICS

Do you think that math is complicated? Hard? Boring? Math gets a terrible reputation among kids (and many adults!), but it is one of the most fascinating things humans have ever discovered.

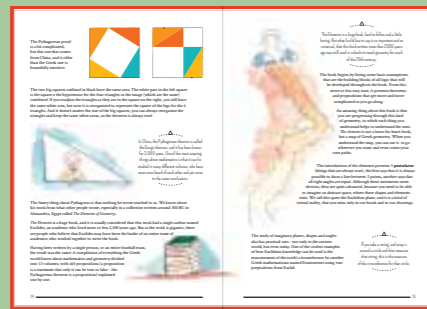

In this book, kids will discover some of the highlights of math history, in a fun, accessible and yet challenging text, that will ask them to think by themselves and get in touch with the wonder and weirdness of the world of mathematics.

Jumping from content to practice, this book also has a lot of puzzles and games, exploring all the main concepts presented in the text. Readers and the entire family can play and exercise their math minds at the same time.

Selling points

- Full of "ahh!" moments that will have readers engaged and thinking for themselves.
- A perfect companion for math classes and to help struggling students dive into the subject
- Researched, written and illustrated with a global audience in mind
- With games and puzzles to exercise mathematical abilities while at play

WHAT WE EAT STORIES AND RECIPES OF WHAT IS IN YOUR PLATE

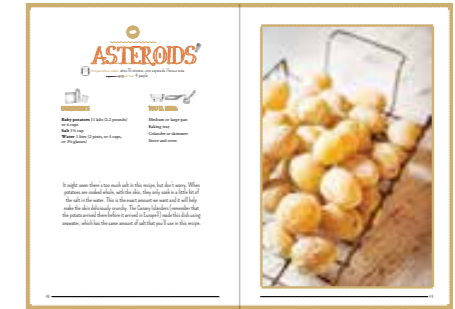

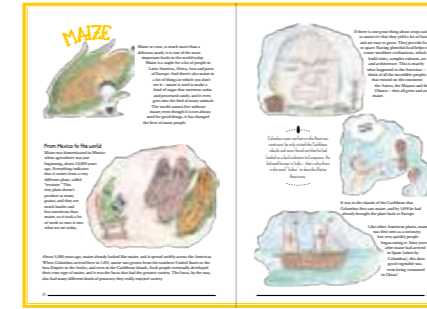

Cooking and history walk hand in hand with human development. This book explores these relationships through 8 ingredients that are common in everyday life. Children will discover how humble foods such as maize or potatoes changed the history of humanity, how tomatoes found a place of glory in Italian cooking and why aubergines are loved by so many cultures.

The book also comes with original recipes for each of the ingredients presented, some brand new, some reaching back to old and traditional ways of preparing each ingredient. All the recipes are vegetarian, and easy to follow and prepare.

Selling points

- Full of fun, intriguing and engaging information about food
- Information designed to contextualize food for kids, a measure shown to improve willingness to try new foods and flavors
- With lots of original and easy-to-follow recipes to be made at home

Publication: November 2017

A FIELD GUIDE FOR YOUNG EXPLORERS PARKS AND GARDENS

This book invites readers to explore the world around them, developing a critical and curious eye to their surroundings.

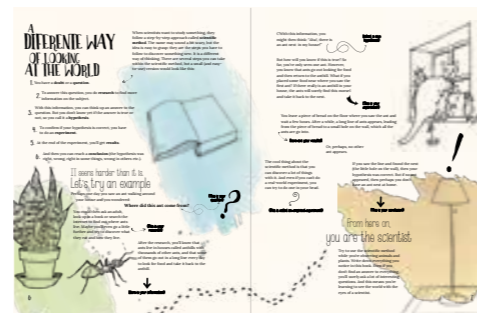

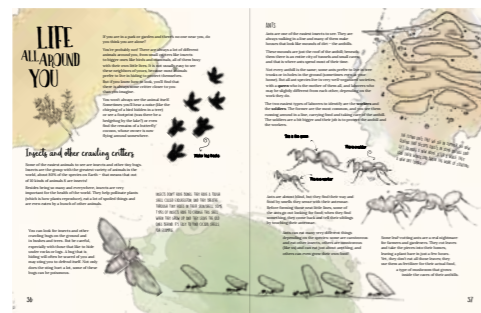

A field guide brings information and curiosities about the natural world (animals, plants, astronomy and climate), tips on how to create a nature journal and suggested activities to help kids engage fully with the natural environment, even if they live in big cities.

The book has several blank pages, so children can continue their explorations and develop their own personalized nature journals.

Selling points

- An engaging and hands-on guide to nature observation and journaling
- Full of ideas of what to look for and how to start exploring nature for beginners
- Can be adapted to different regions.

Author: Clarice Uba
Illustrator: Marcos Paulo Drummond
