

NoodleJUICE

BOOK CATALOGUE 2023 / 2024

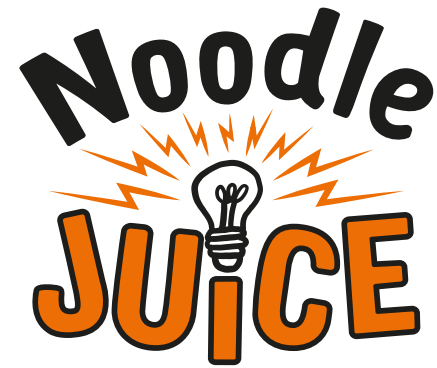

Welcome to Noodle Juice

Noodle Juice books are irreverent, energetic, visually exciting, act-packed, laugh-out-loud eyeball magnets. We amaze, we amuse and we surprise!

We believe that children of today want to see books that compete head to head with the media they consume on screens and devices. The power of words is undisputed, but we want to make sure that the mechanic with which they are delivered is equally powerful.

We're firm believers in the importance of silliness in children's publishing and that a fun book to read is a fun book to make. We aim to be disruptive and challenge conventions with titles that help little people answer the big questions in an increasingly confusing world.

All prices and bibliographic data were correct at time of printing, but we reserve the right to make changes.

Who are we?

Sarah Walden has over 26 years experience in the publishing industry and is a strategic business leader with extensive experience in business transformation and development. She is the founder and managing director of Noodle Juice Ltd, a content creation business and publisher, that launched in June 2020.

Mark Walden is a globally-published children's author with twelve novels to his name. Before this, he worked as a producer in the computer games industry managing projects for companies including Sony, Codemasters and Silicon Dreams. Mark works with Sarah to generate the creative impetus for Noodle Juice, as well as continuing his own writing career.

Both Sarah and Mark are managed on a day-to-day basis by Solo and his assistant, Chewie.

Little Book, Big Idea

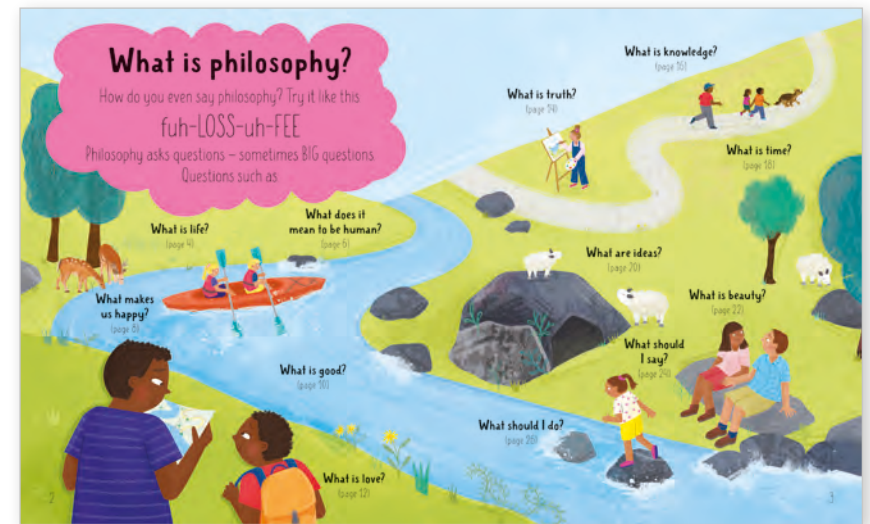

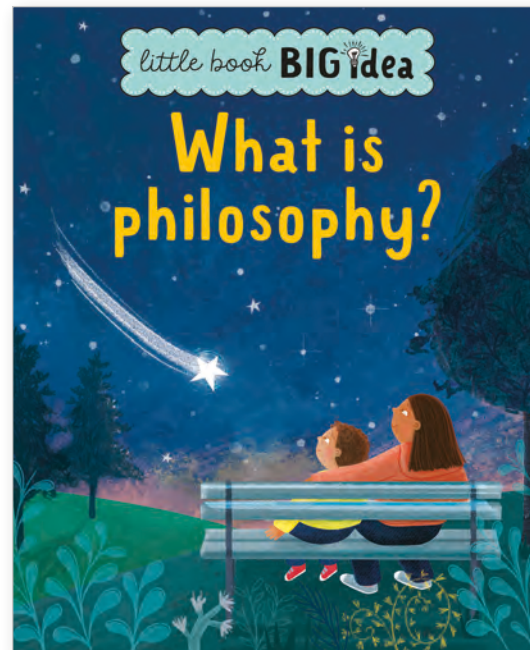

These delightful books build fun foundations for life-long learning by explaining big ideas to little people.

Using simple language to explain complicated ideas, each book takes the core questions that relate to each subject and provides answers that make sense to young children. Stunning illustrations support the non-fiction narrative ensuring our picture book approach feels fresh and different.

Illustrated by Katie Rewse, Bournemouth, UK.

Since graduating in 2017, Katie has specialised in children's book illustration. She is particularly interested in how illustration can be used to inspire positive change and she finds inspiration in travel, adventure and the outdoors.

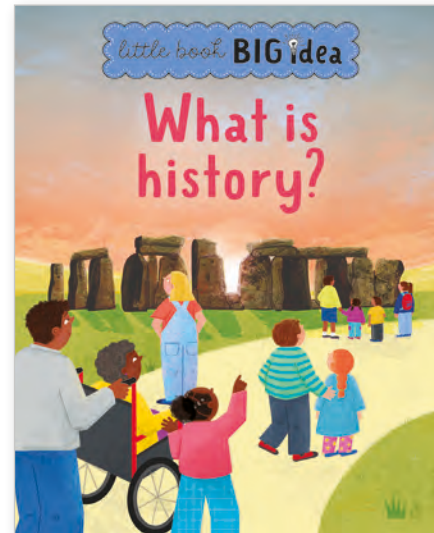

Shortlisted for the AOI World Illustration Awards. Longlisted for the Blue Peter Awards.

"Whether you're an aspiring philosopher or just curious about the world around you, this book and this series sound like the perfect introduction to the world and will inspire you to keep asking questions and seeking answers throughout your life."

When I Grow Up, I Want To...

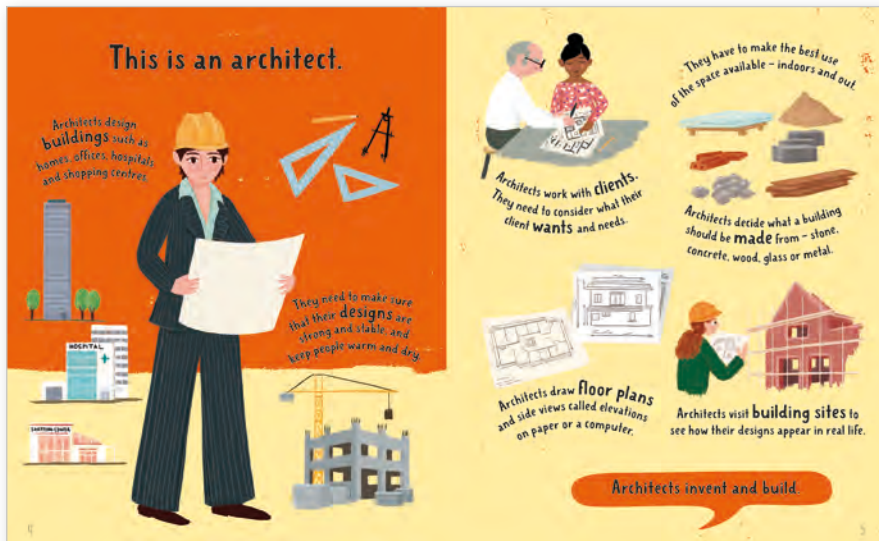

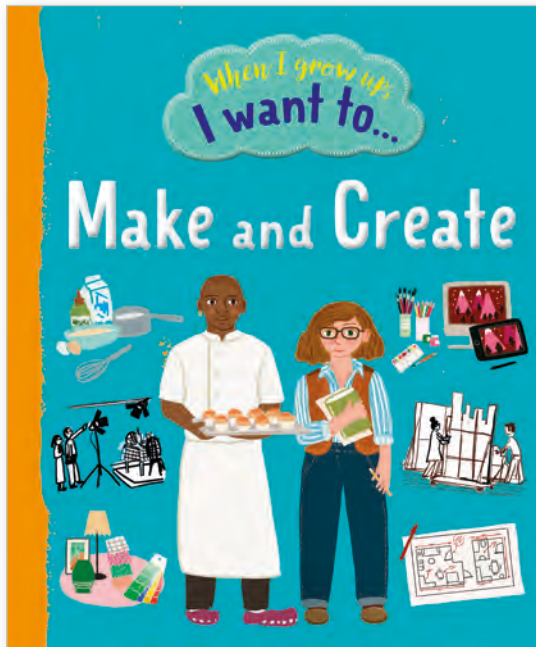

It's never too early to start getting excited about the future! These charming books help little people understand some of the jobs that make the world work.

Using simple language to explain different jobs, each book takes a theme and demonstrates to young children how different roles can help to look after the planet, invent new things, help people and create wonderful stuff to improve our world.

Help People and Look After The Planet
Illustrated by Flavio Remontti, São Paulo, Brazil.

Flavio has worked for several years for game and animation studios. Since 2017 he has worked exclusively as a freelancer, producing art for children's television series, publications, children's books, advertising campaigns, and educational content in Brazil, Canada, Europe, and the United States.

Express Yourself

In a modern world where creativity is more important than ever, these aspirational books will encourage and inspire the next generation of creative young minds.

From the ancient origins of performance to the emerging digital world fusing art and technology, this series gives children an amazing insight into today's creative world.

Illustrated by Hannah Li, New York, USA.

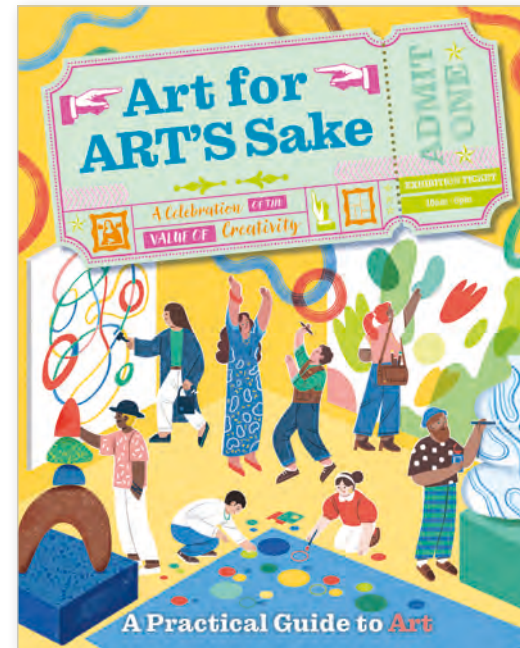

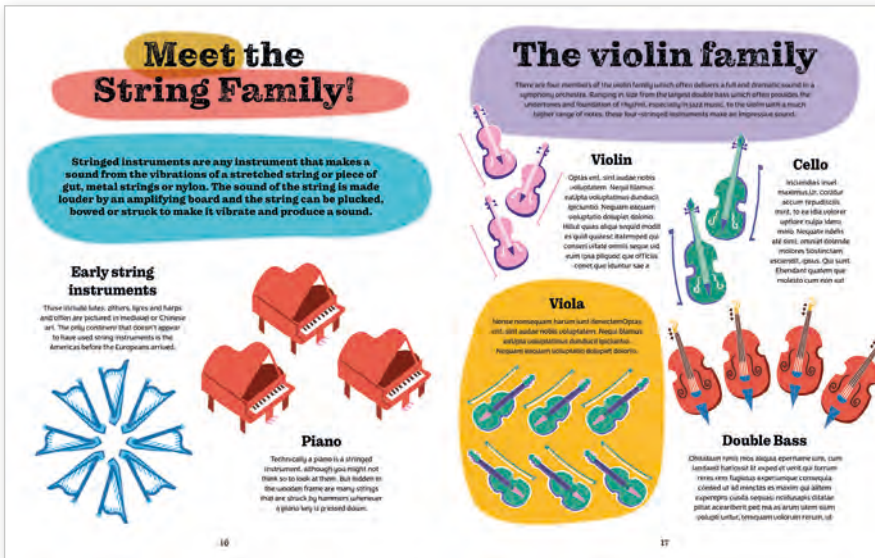

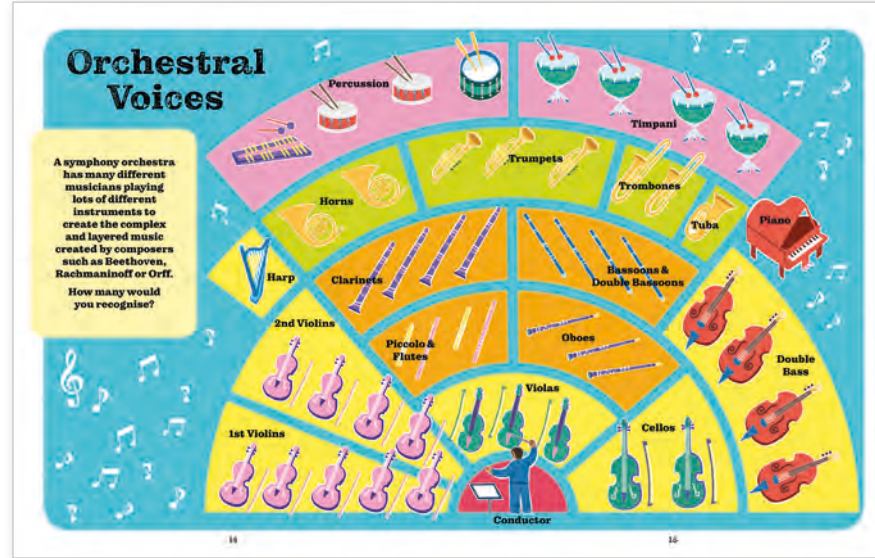

Hannah Li is an award-winning Chinese illustrator based in Manhattan, NY. She started drawing when she was a kid, and amused herself by doodling. After received a Bachelor's Degree in Fine Arts in China, she moved to the US and pursued her MFA in illustration at Savannah College of Art and Design. Later, she moved to New York City and started her career as a freelance illustrator.

"This dazzling nonfiction hardback will entrance any child who dreams of a life and career in film or on the stage."

Practically Awesome Animals Series

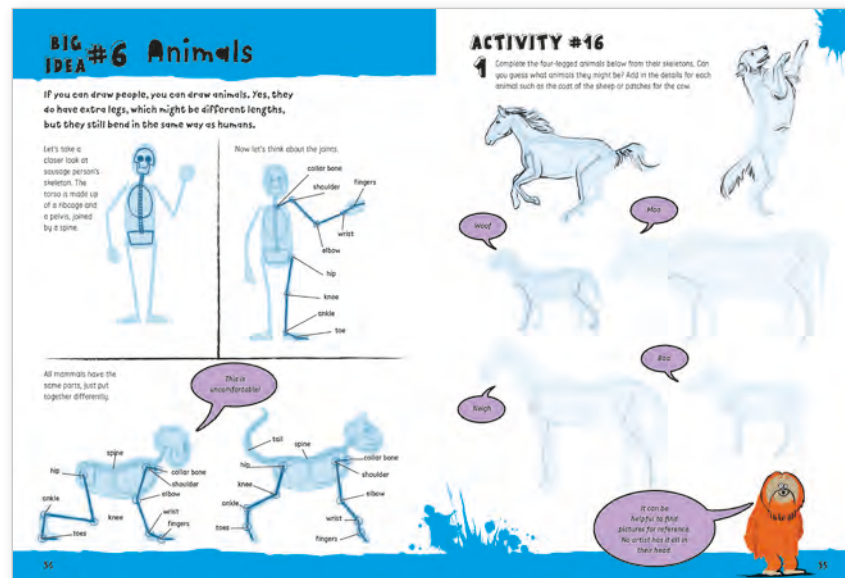

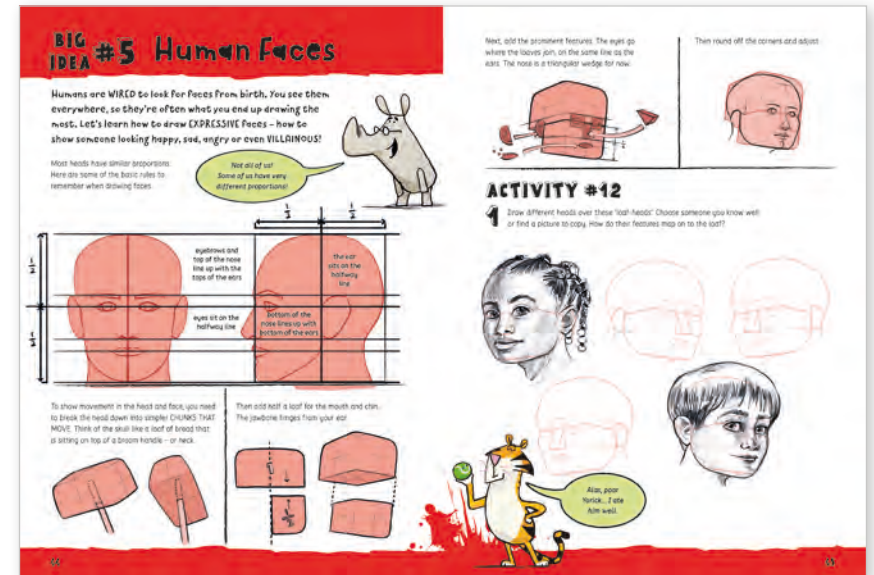

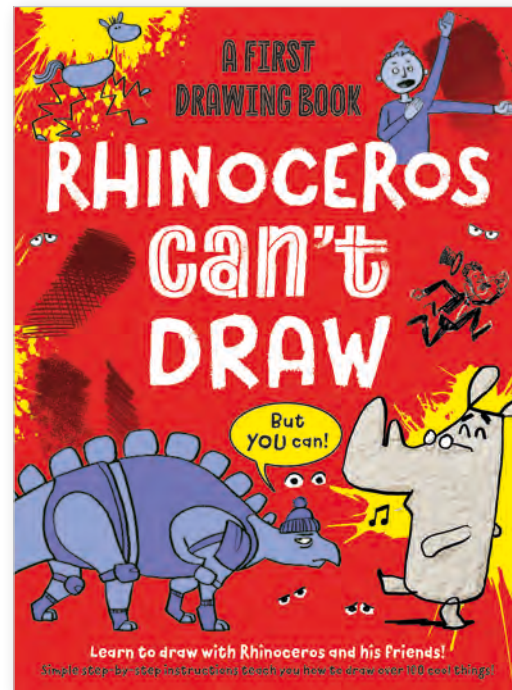

Learn how to draw with our hilarious animal friends!

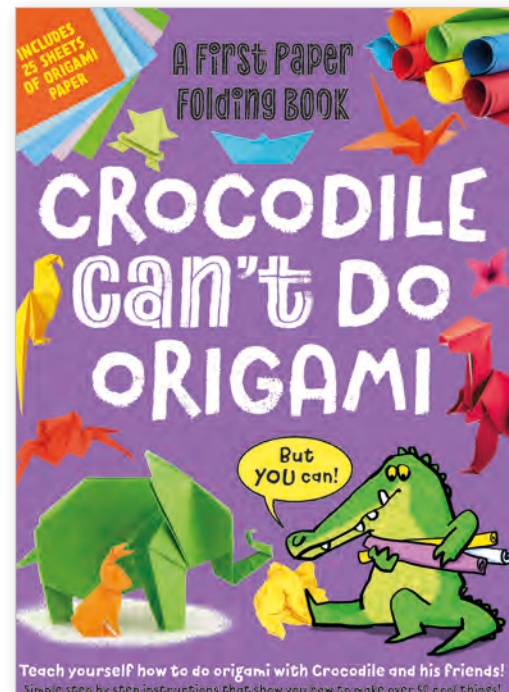

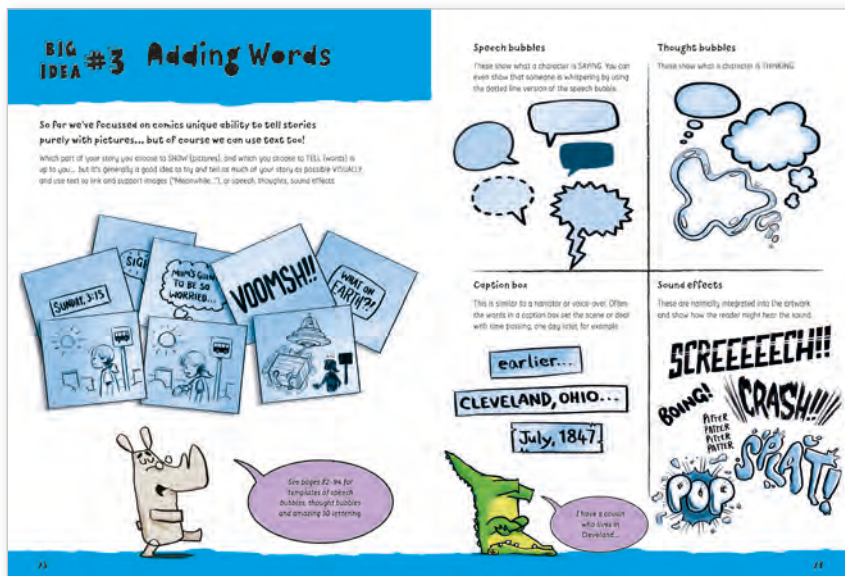

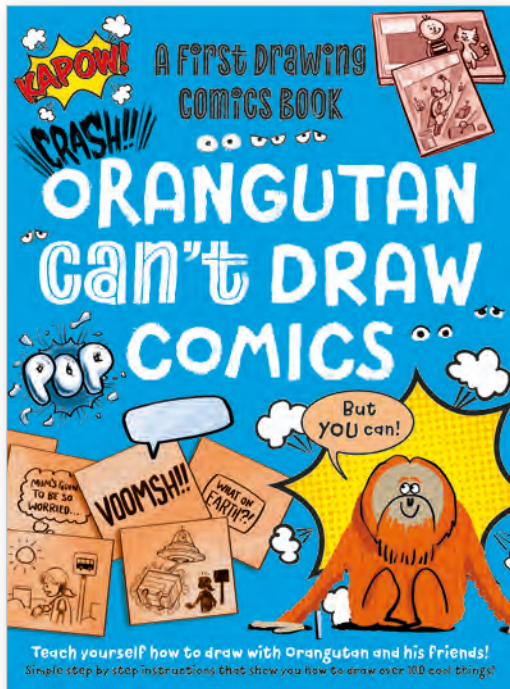

Rhinoceros and friends teach readers how to draw. With step-by-step instructions and bright, colourful illustrations, these practical fill-in art activity books give children the basic skills to unleash their inner artist.

Orangutan reappears in the next book in the series, where he desperately wants to learn how to draw comics. Luckily his friends come to the rescue and both Orangutan and the reader learn all the tricks of the trade to create their very own amazing comics.

Co-written and illustrated by Luke Newell.

Luke, originally working in traditional animation for TV and advertising (Picasso Pictures, MTV), has moved through web animation into interactivity and games, working for ten years as in-house Illustrator and Concept Artist at Playstation's London Studio. He is currently a full-time Illustrator.

Clever Cogs Fact Books

Fascinating facts to feed hungry young brains.

Inquisitive children absorb information at the speed of light and sometimes it's quite hard for parents to keep up. Well, don't worry, we have hundreds of sensational facts to feed children's brains. From animals, to technology, from our planet to space, from famous people in history to the food we eat, there are facts galore! Plus a giggle or two along the way.

Illustrated by Rich Watson.

Rich grew up in a small village in North Lincolnshire. As a young child he was a very avid reader and loved to immerse himself in a book. Drawing is something that has always been a part of who Rich is. He particularly remembers scribbling and doodling various characters over paper which had been brought home by his dad from work, the company name and address printed in red all over one side but it didn't matter! Rich has been a fulltime illustrator since 2003.

There are over 1,200,000 different kinds of animals on Earth. Here are some fascinating facts about some of the most amazing creatures on the planet.

Many animals have spines - we call these **vertebrates**.

Vertebrates can be split into two types: **warm-blooded** and **cold-blooded**.

Reptiles are cold-blooded animals. The scales that cover their bodies are made from the same stuff as human fingernails.

Fish are also cold-blooded, and there are over **34,000** different types of fish.

Amphibians, such as frogs, first appeared on Earth about **340 million years ago**. They live both on land and in water.

Bird and mammals are warm-blooded.

Birds lay eggs, so do these mammals, the duck-billed platypus and the spiny anteater.

A duck-filled fatty-puss.

What do you call a cat who has eaten a duck?

All the other mammals give birth to their babies.

There are over **5,500** different kinds of mammal.

But, almost 25% of those mammals are at risk of dying out. Humans are destroying their homes or in some cases, hunt the animals to **extinction**.

Mammals can be grouped together by **common characteristics**. Here are some mammal groups.

marsupials

carnivores

primates

rodents

The largest mammal on Earth is the blue whale. It can weigh the same size as **30 elephants** combined.

The smallest mammal is the bumblebee bat. It weighs less than 2g (0.07oz).

How do the elephants get into the ocean in the first place? Easy, they've got swimming trunks.

Liza has a passion for infusing her work with colour, texture, creativity and fun.

7 sleeps 'til Christmas

Silver Fairy Christmas Cupcakes

These cupcakes are really easy to make and decorate, and even better, they are delicious to eat too. Why not bake two batches and share with your friends?

Cupcake ingredients
 100g butter, softened
 200g caster sugar
 2 eggs
 250g self-raising flour
 12 paper cupcake cases

For the icing
 25g butter, softened
 250g icing sugar

For decoration
 1 tablespoon icing sugar
 silver balls or sprinkles
 250g icing sugar

You will need
 12-hole muffin tin and 12 paper cupcake cases
 Makes 12 cupcakes

Method

1. Heat the oven to 180°C / 350°F or gas mark 4.
2. Cream the butter and sugar together in a bowl until light and fluffy. Beat the eggs in a separate bowl. Add small amounts of egg to the butter and sugar mixture, alternating with small amounts of flour until they are all mixed together. Add the milk if the mixture is a bit stiff.
3. Put a paper case into each hole of the muffin tin and use two teaspoons to fill the paper cases almost to the top.
4. Bake the cakes in the oven for 14-18 minutes. Once out of the oven leave in the tin for 5 minutes and then place on a wire rack to cool.

To make the icing, sieve the icing sugar into a bowl, add the butter and then cream together until smooth.

To assemble the cupcakes, use a sharp knife at an angle to cut a circle from the top of each cake. Then cut the circle in half to make fairy wings.

Fill each hole with icing and then place two 'cake wings' gently on to the buttercream, leaving a small gap in the middle for decorations.

Take the silver balls or sprinkles and place on the icing in the middle. Then gently sieve the remaining icing sugar over the cupcakes to look like snow.

You might need a grown-up here too!

Ask a grown-up to help you put the cupcakes in the oven.

Make Your Own Christmas Cards

Make your own Christmas cards and a lovely way to show someone you love about them. Make cards like you can see with the 24 cards on page 23 and then put the top and bottom of the card in the envelope.

Method

1. Fold the A4 card in half, making sure to line up the short sides.
2. Press firmly down on the fold. You could use a ruler to make sure the card lies flat.
3. Write your Christmas message on the front of the card. Use the stickers on page 25 to decorate and use your colouring pens to complete the design.
4. Write your Christmas message inside the card, put it in the envelope and send your Christmas wishes.

You will need:
 White or coloured A4 cards, colouring pens, A5 envelopes, a ruler.

Ask a grown-up to help you with folding if you need to.

Happy Christmas!

Christmas Is Coming Activity Book

The Thank You Book

We all know that it's nice to say thank you to people when they do something nice for you. But did you know that if you write down your gratitude, you will feel better too. That's scientifically proven.

This lyrical text encourages children to think about what they have to be grateful for and why, and then suggests that they write it down in the note enclosed in the back of the book.

Age: 4 years upwards

Format: Hardback

Page extent: 32 pages plus novelty paper envelope and note paper

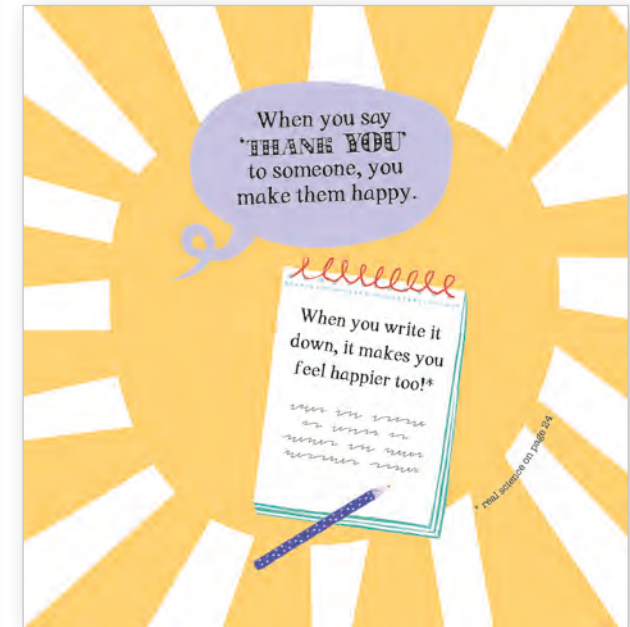

Trim size: 240 x 240mm

RRP: £9.99

February 2024

Illustrated by Mackinzie Reker, Iowa, USA.

Mackinzie lives with her husband, three rambunctious kiddos and an old doggo. She's a self-proclaimed picture book addict and will never have enough bookshelf space. She aspires to make picture books that children see themselves in and that inspire a sense of wonder. When she's not illustrating, Mackinzie can be found reading, traveling, or reading about traveling.

"I firmly believe that nature brings solace in all troubles."

ANNE FRANK

The Elder Tree

The common elder is a hardy shrub in hedgerows. It produces purple flowers in early summer and the deep purple berries in early autumn. Tasting the leaves and unripe berries can be harmful.

Common Name: Elder
Plant Family: Simarubaceae
Height: Up to 5m

Blackberry

Blackberries are a family of plants. The raspberries and blackberries are in the same family. They are very similar to the raspberries. The leaves are serrated and the berries are black.

Common Name: Blackberry
Plant Family: Rosaceae
Height: Up to 3m

The English Cot Tree

During the spring and summer months, the English Cot tree is in full bloom. The flowers are white and the leaves are green. The tree is very hardy and can grow in a variety of soils.

Common Name: Cot Tree
Plant Family: Malvaceae
Height: Up to 10m

The Ash Tree

Fully grown ash trees often grow in groups. They are very hardy and can grow in a variety of soils. The leaves are pinnate and the flowers are small.

Common Name: Ash Tree
Plant Family: Fraxinaceae
Height: Up to 20m

Common Daisy

The common daisy is a hardy plant. It has white flowers with yellow centers. The leaves are narrow and pointed.

Common Name: Common Daisy
Plant Family: Asteraceae
Height: Up to 1m

Colombine

The common European columbine grows tall along hedgerows and roadside verges. It has five petals and five stamens. The leaves are deeply lobed.

Common Name: Columbine
Plant Family: Ranunculaceae
Height: Up to 1.5m

Forget-me-not

The common forget-me-not is a hardy plant. It has small blue flowers. The leaves are heart-shaped.

Common Name: Forget-me-not
Plant Family: Primulaceae
Height: Up to 1m

Forget-me-not

Curiouser and Curiouser

978-1-915613-17-2

Marvel at the mysteries of our weird and wonderful world!

In a world with more questions than answers, a healthy curiosity is more important than ever. *Curiouser and Curiouser* is a cornucopia of weird and wonderful facts displayed in graphic style, using stunning illustrations. Covering everything from the solar system to dinosaurs, and from insects to architecture, this title is packed with quirky facts to amaze, amuse and feed young minds.

April 2024

"The important thing is not to stop questioning. Curiosity has its own reason for existing. One cannot help but be in awe when one contemplates the mysteries of eternity, of life, of the marvellous structure of reality. It is enough if one tries to comprehend only a little of this mystery every day."

ALBERT EINSTEIN

Stories That Built The World

978-1-915613-29-5

A year full of stories from around the world!

Tales of adventure and wonder exist in every culture. Perrault's fairy tales, Norse sagas, Scheherazade's *1001 Arabian Nights*, as well as Shakespeare's comedies and African and Indian folk tales, come together in a glorious collection of 52 retellings of the stories that built our world illustrated in sumptuous watercolour.

Oct 2023

Illustrated by Alette Straathof, Paris, France. Her illustrations are colourful, happy and are drawn in a naive style. Mixing different analogue materials such as watercolour, Indian ink and colour pencils, she creates playful paintings that make people smile and provokes good vibes.
